

# Join us for a Research Showcase

Calling our colleagues and external partners! Find out about the work that is being undertaken within our ARC themes, and understand the potential that the research offers in terms of implementation, change and benefits.

**10 May 2022**  
12.00 – 1.00pm

**Theme: Managing  
Multiple Long-term  
Conditions**

**Chair: Professor Kamlesh Khunti, Director for NIHR ARC East Midlands and Lead for the Managing Multimorbidity Theme**

NIHR ARC East Midlands is the national lead for research on multiple long-term conditions (MLTCs) among ARC's. This showcase on MLTCs will focus on our wide ranging research programme in this area which covers:

- Epidemiology
- Intervention initiatives
- Wider implementation of existing services

These areas currently collectively feed into national strategy, and will inform practice within primary care within the East Midlands and other collaborating regions within the next 5 years.

This showcase will include presentations on:

- The use of real world evidence and big data on MLTCs
- Interventions to address MLTC's within primary care
- Implementation of existing services/ interventions across multiple regions
