Research Participants Needed for Study: *Health research preferences of underserved groups with multiple long-term conditions (MLTCs)*

We are looking for participants to take part in a research study exploring the preferences of people living with multiple long-term health conditions on taking part in health research. If you meet the criteria below, we would love to hear from you.

You can take part in this study if you are:

- Between the ages of 18-80 years old
- Belong to a **South Asian (Pakistani, Indian, Bangladeshi, Sri Lankan)** or **African/Caribbean** background
- Not currently employed or on benefits
- Have two or more long-term health conditions e.g. cancer, diabetes, heart disease, depression, IBS, arthritis etc.

Participation involves:

- Taking part in one focus group OR interview (depending on your preference).
- Interviews/Focus groups will take place online on Microsoft Teams/Zoom or in-person at the Leicester Diabetes Centre, Leicester General Hospital (depending on your preference).

FOR MORE INFORMATION

Please contact researcher, Zara Kayani (zk74@leicester.ac.uk) for any queries regarding the study.
